Official Sale Rules and Regulations

Animals should be in the grounds by 9 o'clock. Auction begins at 1p.m. Animals will be arranged in each class according to age the older first and must be put up for auction in the order in which they appear in the catalogue.

Exhibitors alone are responsible for the correctness of age and other particulars of the animal in the catalogue.

A bull is not eligible for entry unless he has two fully developed testicles in the scrotum.

The exhibitor when the animal is in the ring authorise the Auctioneer to sell at any price. The higher approved bidder shall be the purchaser.

If a dispute arises as to the bid the animal is put up against the last undisputed bid and resold, or the Auctioneer may declare the purchaser.

Purchaser on being declared give their name and address immediately at the fall of the hammer. Each animal must be accompanied by the appropriate I.D.=TB./Brucellosis cards which will be surrendered when animal is presented for admission to show/sale.

All lots become the absolute property of the buyer from the fall of the hammer, and must be paid for in full immediately after the sale and removed with all faults and error of description at the close of the show.

This does not relieve the exhibitor of their responsibility under auction sale. Animals purchased for export must be retained by the exhibitor until shipping arrangements are made and tested if necessary.

The Auctioneer acts as agent for vendor and any action taken by the purchaser must be against the vendor and not against the Auctioneer of the society and vice versa.

The pedigree of each animal is given by the exhibitor but each animal will be sold subject to all faults and error of description. Purchaser not-complying with these conditions will be liable to have their lot resold by public or private treaty, at the opinion of the society, the deposit forfeited and any deficiency arising on such resale to be made good by the defaulter at this sale present as and for liquidated damages but the defaulter should not get the benefit of any increase in price should such results from resale. All animals entered in the catalogue MUST pass through the ring and MUST be offered for sale by public auction.

Any animal not sold in the ring cannot re-enter the sale until all animals of this breed have passed through. Any animal can be sold only in the class in which he was entered if for any reason the animal is offered for resale, it must take place in the same ring. If an animal is unsold in the ring and subsequently sold in the sale yard SUCH SUBSEQUENT SALES SHOULD BE MADE BY OR THROUGH THE AUCTIONEER APPOINTED BY THE SOCIETY. EXHIBITORS INFRINGING THIS RULE WILL BE REFUSED ENTRY TO ANY FUTURE SALE UNDER THE SOCIETY. Exhibitors alone are responsible for the feeding watering and safe keeping of their animals until the close of sale which is after the last animal is sold. EACH EXHIBITOR MUST LEAVE EACH OF HIS ANIMALS WITH A STRONG HALTER SUITABLE FOR TRANSIT. Failing to do so the society is empowered to inflict a penalty of €50. Any animal having passed through the sale ring after 4 p.m. Leave the show /mart under a delivery order from the auctioneer. Exhibitors alone are responsible for any damage loss or injury caused by unmanageable males / females. The society accepts no responsibility or do they accept responsibility for animals left overnight in stalls prior to the sale. Buyers are responsible for animals sold and sellers for unsold animals and for any damage caused. Society reserves the right of refusing any animal without given a reason for doing so. Objections /complaints must be in writing with the society not later than the day of the sale and must be accompanied by a deposit of €200 which will be forfeited if objection /is not upheld. Exhibitors shall appoint the society auctioneer as their agent for sale of all animals entered in the catalogue. In cases of dispute the decision of the society is always final.

Conditions of Sale to Apply to all sales of Munster Angus Breeders

These conditions (and where appropriate at auction, these conditions together with the General Auction Conditions of sale) form the basic of the contract between the vendor and the purchaser and from the contract all conditions and warranties implied under the sale of goods act 1893 and the sale of goods and supply of services act 1980 or any other statutory enactment or implied by any law or custom or usage are expressly excluded. In the event of a sale by auction and there is a conflict

between these conditions and the general conditions of the auction these conditions shall prevail. All animals are breeder bred. Animals sold from one breeder to another must be transferred to the new herd owner /breeder for at least 6 months prior to date of sale.

An example of this is one where a breeder buy a cow with calf at foot, calf being 6 months or less or where a breeder buys from another breeder a male /female calf not more than 6 months .

All animals are sold as they stand and the purchaser is deemed to have examined each animal and has fully satisfied himself /herself about the animal prior to the sale. Save as here after providing no warranty what ever as to the performance of fertility of any bull and the purchaser is here by invited to insure himself against this or any other risk connected with the bull at his/her own expense. The vendor shall and does provide the following guarantee as to fertility with each bull sold. No guarantee what so ever as to fertility is given with any bull under the age of 9 months at the date of sale unless other wise stated in writing subject to the conditions here after set out, the vendor guarantees that the bull. Is capable of putting a cow or heifer in-calf by natural services within 2 months of attaining the age of 14 months which ever is the later. This guarantee shall be fulfilled whenever one female animal is proven to be in calf to that bull subsequent to the sale. A bull shall not be deemed incapable of putting a female in calf by natural services within 2 months of attaining the age of 14 months which ever is the later. For the purpose of this paragraph the term 'FAIRLY TRIED' shall not be deemed to have occurred when less than 3 females in season have been

Properly presented to, or run with the bull. If on purchases a bull is found impractical for the buyer to fairly try the bull within the period stated due to the purchaser normal calving programme the vendor must be informed in writing immediately after the sale of the month in which it is proposed to commence using the bull At the discretion of the vendor the date of commencement of the trial period may be extended to the 1st of the month in which the buyer notified them as aforesaid that he proposed to commence using the bull. The vendor should not unreasonably refuse to extend the time and in any event shall communicate his decision in writing to the purchaser within 7 days of receipt of the said notice in writing of the purchaser. The purchaser shall give notice in writing by registered post to the vendor of the inability of the bull to put a female in-calf or a suspected inability in this respect not before the expiration of one month or after the expiration of 3 months commencement of the trial period granted whichever is the later.

On receipt of the notice served by the vendor shall forward to the purchaser a bull fertility report which shall be compelled by a qualified veterinary surgeon and returned to the vendor within 30 days of the date of issue accompanied by a cert by a qualified veterinary surgeon declaring that the inability of the bull to put a female in calf by natural service is not the result of injury /accident /disease or neglect happening after the sale, that he has examined the female in which the bull has been tried and has found them in a normal breeding condition and they are not responsible for the Bulls inability to put a female in calf by natural services .

The purchaser should give the bull every opportunity of proving himself capable of putting a female in calf by natural services within the period of 2 months mentioned in the guarantee and shall (if required) allow a veterinary surgeon appointed by the vendor to examine and try the bull and in addition shall if required allow the vendor to remove the bull to his own or another premises in order to try the bull.

In the event of the vendor and the purchaser failing to agree on whether or not the bull is incapable of putting a female in calf in accordance with the foregoing provision or in the event of any other dispute arising between the parties concerning the implementation or interpretation of this agreement the said dispute shall be and is hereby referred to arbitration by a single arbitrator to be agreed between the vendor and the purchaser (or in default of the agreement to be nominated by the president for the time being of the Incorporated Law Society of Ireland) such arbitration to be conducted in accordance with the Arbitration Act 1954 & 1980. The afore mentioned referral to arbitration shall be a condition precedent to the commencement of any legal action

In the event of the vendor & purchaser (or on default the arbitration) concluding that the bull is incapable of putting a female in calf in accordance with the foregoing provision of the agreement then the vendor shall be bound to accept the return of the bull and on return of it to his premises (unless some other arrangement shall be mutually agreed upon) to return to the purchaser the whole of the purchase price of the bull together with expenses of the purchaser's veterinary surgeons the cost of carriage from the purchaser's premises to the vendor's premises the carriage and keep of the bull from the date of notification of claim provided however such expense and cost shall not exceed the amount of 10% of the sale price of the bull. Pay the cost of the arbitration in accordance with any direction given by the arbitrator in this regard. Save as aforesaid the vendor

shall be under any liability whatsoever to the purchaser in respect of loss sustained by the purchaser however this loss arises and whether it is consequential or otherwise.

The society and the auctioneer shall not be under any liability whatever to the purchaser in respect of a loss sustained by the purchaser however so ever arising whether it be consequential or otherwise .m

Breeding Guarantee Female

Any female realising €1000 or more that is stated by the vendor having been served or artificially inseminated not less than 12 weeks before the date of the sale shall be guaranteed in calf to the service on date of insemination and to the bull stated ,unless any alteration to the service particulars is announced from the rostrum or by the vendor at the time animal is sold .The term running with a bull implies no guarantee of pregnancy unless specifically stated by the vendor at sale ,neither shall the provision by the vendor of certificate of positive pregnancy imply any such guarantee ,this being merely an expression of opinion .Every female sold as unserved shall be so guaranteed and all such heifers unless sold sucking there dam shall carry a guarantee that they are capable of breeding.

Caves sold sucking there da are given to the purchaser free and no guarantee apply unless specifically stated by the vendor at the time of sale .No claim under these rules will be affective unless made to the auctioneer or vendor within the following time limit.

In case of a cow or heifer sold as being in calf which proves not to be in calf within 49 days of the sale .

In the case of a cow or heifer although in calf does not calf to the stated service or A.I. Within 2 months of the date that the animal should have called according to the particulars of service of A.I.

In all such cases no claim will be admissible unless there is an interval of more than 4weeks between the presumed date and the calving date. The average gestation period is 283 days

In the case of a cow or heifer which produces a calf to a different bull to that stated by the vendor ,within 48 hours of Calving ,such information should be submitted to the auctioneer or vendor by phone and then in writing .Where a female calves at a later date than the date due the onus of proving I.D. Of the bull is on the vendor .In the case of a heifer sold as unserved and subsequently proves in calf within 6 months of sale date .

In the case of a maiden heifer which proves incapable of breeding because of malformation or abnormality of the genitals system not before the animal attains the age of 27 months and no claim under this rule will be admissible after the animal has attained the age of 36 months .Any fe mail that has been flushed for embryo transplant will be excluded from the term of this guarantee but the vendor of such animals shall have the option of giving their personal guarantee to be announced at sale .No claim will be admitted under these rules where it has been proven that the female is caring a mummified calf or has aborted or re aborted a foetus and no guarantee is given or implied that the female will carry a calf full time

ALL CLAIMS MUST BE SUBMITTED TO THE VENDOR AND THE SECRETARY OF THE SOCIETY AND SHALL BE RESOLVED IN ACCORDANCE WITH THE PROVISION OF THE AGREEMENT

Rerun's at Sale

1. Only first three animal that will enter the sales ring can rerun
2. Rerun will happen after lot 15
3. Any animal that enters sale ring after the third animal can only be re run at the end of the sale

Conditions for breeding sale

All bulls must be fertility tested (present fertility cert on arrival) and all females must be scanned incalf/certified fit for breeding

All cattle must be genomic tested (entries will be checked prior to Sale)

All cattle must be halter trained and easily led by handlers

All cattle must be exhibitor bred, born and registered in herd number of exhibitor

Livestock will be refused admission to show / sale if they

Fail conditions of entry

Deemed unfit for sale Eg One testicular, Lamé, Ringworm,or Warts

Poor temperament and /or not properly trained
